### Select KOMPOSTER/Sustainability Highlights:

- Since 2010, we have been creating a model for volunteer-run, near zero-waste street festivals in Milwaukee.
  - **Future Goal: train other MKE street festivals.**
- The Bash incentivizes vendors' use of compostable food/drink-ware & prohibits sale of plastic water bottles.
  - **Future Goal: multiple water filling stations.**
- In 2018, 35,000 attendees created 4000 lbs trash in one day.
  - 74% of all items tossed into landfill bags were compostable, and was reclaimed by volunteers.
  - 250 Volunteer KOMPOSTER Hours were needed to hand-sort 100% of all trash.
  - Landfill dumpster use dropped from 5 dumpsters to 1.
  - **New in 2019: #MKENoWaste Campaign supporting BYO cups, utensils, straws to reduce single-use items.**
- Six different KOMPOSTER Green Teams from Milwaukee area schools & sustainability organizations earned stipends for hand-sorting 100% of trash.
